

## TICKET VALIDATOR ELECTROMAGNET

Electromagnet used : **7110**

SIZE	POWER SUPPLY	WEIGHT (g.)	STROKE (mm)	Max strength on call (kg)
19x19x30	24 VDC (5%)	40	10.5	100g (cold) 40g (warm)

### Principle:

*The electromagnet is used to activate a flap designed to change the paper route in order to keep the tickets inside the terminal once they have been paid.*
