CERTIFICATE OF COMPLIANCE

Restriction of the use of certain hazardous substances
(RoHS)

EC Directive 2002/95/CE (the RoHS Directive) restricts the use of certain hazardous substances in electrical and electronic equipment.

Based on information we have in hand, TEC AUTOMATISMES designates the products supplied to its customers as RoHS compliant for orders placed on or after the date of this certificate.

Confirmation of compliance status is :

- ✓ Either because the products do not contain any of the restricted substances referred to in Article 4 of the RoHS directive at concentrations in excess of those permitted under the RoHS Directive,
- ✓ Or because the existence of the restricted substances in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

TEC AUTOMATISMES has taken all reasonable steps to confirm the information given to its customers and maintains a full audit trail of relevant documentation to support this.
